EDUCATION

Institute of Business Administration, Karachi

2023 – Present

Bachelor of Science in Computer Science

Relevant Coursework: Web Application Development, Algorithms & Data Structures, Database Systems, NLP with Deep Learning

PROJECTS

Restaurant Management System

2024

- Designed and developed a full-stack web application end-to-end using React and Node.js, covering database schema design, REST API integration, and frontend deployment.
- Built multi-role UI supporting kitchen, cashier, and admin workflows with a PostgreSQL backend and reusable React components.
- Took complete ownership of the project from requirements to delivery — no hand-off at any stage.

Student Connect Application

2024

- Built a Java Android application from scratch using Android Studio, handling the full stack from Firebase database configuration to multi-screen UI implementation.
- Implemented real-time data sync, user authentication, and smooth multi-screen navigation using Activities and Fragments with XML layouts.
- Delivered end-to-end: sole developer responsible for architecture, implementation, and testing.

Medical Q&A RAG System

2024

- Built and deployed a full-stack AI web application using Streamlit on Hugging Face Spaces, integrating a Pinecone vector database and LLaMA 3.1 8B via REST API.
- Managed the complete development lifecycle from data ingestion and indexing to frontend deployment and live user-facing query interface.

Phishing Website Detection System (WebAware)

2024

- Developed a full-stack ML web application in Python with a real-time classification interface for URL threat detection.
- Designed the frontend interface in Figma and implemented the detection dashboard end-to-end.

SKILLS

Frontend: React, HTML, CSS, JavaScript, XML Layouts (Android)

Backend: Node.js, Express, REST APIs, Python

Mobile: Java, Android Studio, Firebase, Activities & Fragments

Databases: PostgreSQL, Firebase, MongoDB, Pinecone

AI & Tools: Hugging Face, Streamlit, OpenRouter API, Generative AI, Prompt Engineering

Design: Figma (wireframes, mockups), Canva

Productivity: MS Excel, MS Word, MS PowerPoint

Core Competencies: End-to-end ownership, reliable delivery under tight timelines, adaptability, fast learning
